Madhav Trivedi

Software Engineer

madhavtrivedi.work17@gmail.com | https://www.linkedin.com/in/madhavpt | +91-9106655362 | Pune, India

SUMMARY

Senior Backend/AI Engineer with 7 years of experience building scalable products from 0-to-1 and leading engineering projects and teams. Expertise in LLMOps, Agentic AI, AI observability and governance, and cost-efficient scaling, with proficiency in Python, Node.js, microservices architecture, system design, reliability, and performance optimisation. Product-centric engineer who takes ownership of features end-to-end, from architecture and design to deployment, delivering reliable, scalable platforms with measurable business impact.

TECHNICAL SKILLS

Languages:	JavaScript, TypeScript, Python
AI / LLM:	LLMOps, MCP, Agentic AI, RAG
Backend/Distributed Systems:	Node.js, NestJS, FastAPI, gRPC, Kafka, REST, GraphQL
Frontend:	React, Angular
Cloud & Infra:	AWS (EC2, S3, Batch, Airflow, Bedrock), Docker, Terraform
Databases:	SQL, NoSQL, Postgres
Observability & Monitoring:	LiteLLM, Langfuse, Datadog, Grafanna

SECONDARY SKILLS

Ownership • Leadership • Team Collaboration • Adaptability • Interpersonal Communication • Delegation • Detail-oriented

WORK EXPERIENCE

Madison Logic India Dec 2024 – Current

(Sr. Backend Engineer - AI) *Pune, MH*

- **Built and managed organisation's AI infrastructure** by setting up an AI Gateway, supporting multiple LLM providers, becoming the company's standard AI infrastructure, **adopted across all teams, processing 1M+ requests/month**.
- Built the AI Gateway platform: model abstraction layer **eliminating vendor lock-in** with fallback routing**, semantic caching, real-time cost monitoring, AI observability, and PII-detection guardrails for data safety and compliance.**
- **Led migration from monolithic architecture to distributed microservices,** defining service boundaries, API contracts, and deployment strategies that improved resilience and enabled independent, scalable releases**.**
- **Designed and built a scalable Lead Scoring service** combining a deterministic algorithm with an ML-based predictive model, architected with a pluggable interface for adding new scoring methods without reworking the core service.
- Owned a custom lead delivery platform end-to-end **(70% revenue increase, 2x operational efficiency)** and led production release strategy **for 15+ revenue-impacting apps -** Blue/Green deployments, controlled A/B rollouts, and **standardized Datadog observability, cutting incident resolution time in half.**
- **Implemented the Outbox Pattern with Kafka and orchestrated Saga workflows**, ensuring guaranteed event delivery, eliminating distributed locking, and achieving eventual consistency.

Thinkbridge Software Pvt. Ltd. Nov 2020 – Sep 2024

(Software Engineer) *Remote, India*

- **Implemented internationalization (I18N) and localization (L10N)** to expand global accessibility, while optimizing data handling and client-side caching strategies, resulting in over **~80% revenue growth** and increased international adoption.
- **Designed a high-performance client-side search** architecture supporting **1M+ records** with fuzzy search capabilities, **reducing page load times by ~50%** and significantly improving user experience.
- **Engineered and maintained** multiple business platforms including FinTech applications, a Career Services Portal, and a Product Subscription system, ensuring scalability, reliability, and continuous feature delivery.
- **Directed requirement analysis** and delivery execution, translating business needs into technical solutions, delegating tasks, conducting code reviews, and managing CI/CD pipelines for consistent and reliable releases.

Ubisoft India Jan 2020 – Nov 2020
(Junior Web Developer) *Pune, MH*

- **Drove key initiatives** at Ubisoft India, crafting responsive UI screens, developing APIs, and optimizing backend systems.
- **Developed an automated HR system**, enhancing accuracy by up to **~15% and reducing manual workload by ~80%.**

PROJECTS

- **E-Commerce Microservices | Skills:** gRPC, GraphQL, React, NestJS, NodeJS, Docker, PostgreSQL
- **Portfolio Site | Skills:** React, Github Actions
- **Tab's Archive | Skills:** Problem Solving, System Design, Design Patterns, JavaScript, Project Management, Chrome API
- **Curve (Covid-19 Cases monitoring mobile app) | Skills:** Flutter, Dart, Firebase, Data Visualization
- **Face Detection Attendance System | Skills:** Python, OpenCV, Microsoft Azure Cognitive Services, SQL

CERTIFICATIONS

- **Data Structures and Algorithms** – GeeksForGeeks
- **System Design from Low Level to High Level** - GeeksForGeeks
- **J.P. Morgan's Software Engineering Virtual Experience** - Forage
- **Data Analytics with Python** - FreeCodeCamp
- **Scientific Computing with Python** - FreeCodeCamp
- **JavaScript Algorithms and Data Structures** - FreeCodeCamp
- **Back End Development and APIs** - FreeCodeCamp

EDUCATION

MCA Computer Science - 8.15 CGPA 2017 – 2020
Maharashtra Institute of Technology (MIT), Pune, India
